

Shania Siew

BSc Computer Science (Special) • First Class Honours

University of the West Indies, St. Augustine • Trinidad & Tobago

CONTACT

-  (868) 703-1948
-  shaniasiew14@gmail.com
-  Clarke Road, Penal, TT

LINKS

- [linkedin.com/in/shania-siew](https://www.linkedin.com/in/shania-siew)
- github.com/esnotme

TECHNICAL SKILLS

- Python, Java, C++, JavaScript
- REST APIs & API Integration
- UiPath RPA & REFramework
- AI & Machine Learning
- Git & GitHub
- Database Management (SQL)
- Data Analysis & Visualisation
- Cybersecurity Fundamentals

LANGUAGES

- English (Native)
- Spanish (CSEC Grade 2)

AWARDS

- 1st — Agriculture (Std. 5)
- 1st — Art (Form 1)
- 1st — IT (Lower Six)
- 3rd Overall (Upper Six)
- National Bursary (UWI)
- Dean's Honor Roll x2

ACTIVITIES & CLUBS

- Tech Club (Secondary)
- Science Club (Secondary)
- Eco Club (Secondary)
- Biological Society (UWI)
- Toastmasters (UWI)
- IVCF (UWI)

PROFILE

Computer Science graduate (pending results) from UWI St. Augustine with a strong academic record, including a National Bursary and two Dean's Honour Roll distinctions, maintaining First Class Honours standing (GPA 3.6+). Experienced in software development, enterprise automation (UiPath), API integration, and applied AI/data science research. Able to design and implement structured solutions across full development workflows and adapt quickly to new technologies in both independent and collaborative environments.

PROJECTS

Student Incentive & Volunteer Tracking System

2025

■ Full-Stack Team Project • Team Lead

- Led a team in designing and building a full-stack web application enabling students to log and track volunteer hours, earn reward points, and view participation milestones.
- Architected the backend using Python and Flask, implementing RESTful API endpoints for user authentication, hour submission, and reward logic.
- Managed version control and team collaboration workflows via Git, coordinating feature branches, code reviews, and merges across the team.
- Designed the data model and database schema to support scalable tracking of student activity, rewards, and administrative oversight.

Workforce Intelligence — HR Analytics System

2025

■ Final Year Project

- Developed an end-to-end data science pipeline analysing employee attrition using preprocessing, predictive modelling, and survival analysis.
- Applied explainable AI (SHAP) to interpret model outputs and ensure transparency in HR decision-making.
- Evaluated model fairness and business impact through ROI-based analysis, prioritising actionable and ethical outcomes.

Stock Market Prediction System

2025

■ Machine Learning Project

- Built a cross-industry forecasting system for financial time series across multiple sectors using ML models.
- Integrated external datasets — commodity prices, FX rates, industry indicators — to enrich predictive context.
- Focused on model interpretability and real-world applicability beyond raw accuracy metrics.

EXPERIENCE

Automation & AI Research Intern

June 2026 – July 2026

■ Diagon Consulting Ltd

- Analysed enterprise automation workflows by reviewing client resources and contributing to structured process documentation for RPA implementation.
- Worked with UiPath REFramework to apply automation architecture principles in an enterprise environment.
- Implemented and tested API integration concepts via UiPath Orchestrator; researched AI technologies for automation use cases.
- Produced structured technical documentation to support internal evaluation and future AI adoption.

KEY SKILLS

- Python & Flask
- Full-Stack Development
- Machine Learning
- UiPath RPA
- REST APIs
- Git & Version Control
- SQL Databases
- Team Leadership

CERTIFICATIONS

- Cybersecurity & Technology Workshop
— Oct 2024

PERSONAL

D.O B: 14th July 2004
Nationality: Trinidadian

EXPERIENCE (CONTINUED)

Volunteer Researcher & Session Co-Host

May 2024 – Present

RSC

- Contributed to research on mathematics and AI avatar implementation concepts.
- Co-hosted virtual sessions managing engagement with secondary school students in STEM.

Volunteer — Animal Care Assistant

May 2024 – Aug 2024

Animals Alive

- Supported daily animal care operations; collaborated with staff in a fast-paced service environment.

EDUCATION

BSc Computer Science (Special) — Awaiting Results

Sep 2023 – Present

University of the West Indies, St. Augustine

- Completed all degree requirements; awarded National Bursary; maintained First Class Honours (GPA 3.6+).
- Dean's Honour Roll x2; Cybersecurity & Technology Workshop certification (Oct 2024).
- Class Representative and temporarily on Project management team of Biological Society

CAPE — Caribbean Advanced Proficiency Examinations

Sep 2021 – Jun 2023

Holy Faith Convent, Penal

- Unit 1 — Grade 1: Computer Science, Information Technology | Grade 2: Physics, Communication Studies.
- Unit 2 — Grade 1: Computer Science, Information Technology, Physics | Grade 2: Caribbean Studies.

CSEC — Caribbean Secondary Education Certificate

Sep 2016 – Jun 2021

Holy Faith Convent, Penal

- Grade 1: Biology, Chemistry, Physics, Mathematics, English A, Information Technology.
- Grade 2: Additional Mathematics, English B, Spanish.

Dayanand Memorial Vedic School

Sep 2009 – Jun 2016

Primary Education

- Passed S.E.A. (Secondary Entrance Assessment) top of class.

EXTRACURRICULAR & INTERESTS

Music (choir, guitar, drums) • Visual arts • Martial arts & Taekwondo • Board games & strategic thinking • Animal welfare
